

Econoseal 10 pinout

- 1: mcp3208 ch0 (protected analog input)
- 2: mcp3208 ch1 (protected analog input)
- 3: mcp3208 ch2 (protected and pulled up analog input)
- 4: mcp3208 ch5 (protected and pulled up analog input)
- 5: mcp3208 ch6 (pulled up analog input, Strictly 0-5V.)
- 6: 2nd wheel speed in
- 7: p259 ch4 output (switching to GND ; primarily for LED with min 100 Ohm current-limiting resistor, or Check-engine-light or resistive load, max 300mA)
- 8: Extra output 5 (with flyback)
- 9: Extra output 6 (with flyback)
- 10: GND

WBO2 connector pinout LSU4.9

Front of connector

Sensor Connector

- 1: thin red (pump +)
- 2: blue (pump -)
- 3: brown (Heater-)
- 4: thick red (+12V)
- 5: Not connected
- 6: black (nernst)

The **serial cable** is ready for Bluetooth or Wi-fi (+5V on **DSUB9/pin9**, GND is DSUB9/pin 5)
