

# Index

## A

Alimentary tract, 15, 16, 23  
*Anguillicola crassus*, 5, 7, 111, 115, 181, 187,  
196, 202–210, 212–217, 219, 372, 387,  
394, 471

## B

Barriers, 4, 34, 66, 67, 76–78, 81–91, 403,  
407, 421, 423, 470  
Behavior, 45, 49, 75, 184, 281, 395, 401, 402  
Buoyancy, 5, 7, 15, 104, 113–115, 118, 119,  
187, 191, 196, 213, 217, 471

## C

Calcium, 140, 141, 147, 148, 155, 237, 242,  
244, 313  
Cost of transport, 7, 181, 184–189, 192,  
217–219, 244, 375, 467, 468  
Cryo-preservation, 309, 333–356

## D

Dopamine inhibition, 279–301  
Dopamine receptor, 18  
Downstream migration, 4, 13, 24, 25, 27, 34,  
39, 45, 48–50, 54, 66–69, 73, 76–78,  
81, 85–91, 141, 466, 470, 471

## E

Endocrine disruption, 422  
Endurance, 7, 180, 183–188, 217, 467,  
468, 472  
Energy metabolism, 107, 108, 110, 118  
Eel Virus European X (EVEX), 5, 388,  
390–391, 393–397, 470–472  
EVEX. *See* Eel Virus European X

Evolution, 13–35, 54, 55, 156, 162, 256, 300,  
301, 344, 401, 402, 407, 410, 417, 423,  
433, 434, 438, 446–448, 451

## F

Fertilisation, 5, 6, 338, 340  
Fitness, 7, 110, 183, 185–187, 196, 404, 407,  
417, 419, 420, 424, 425, 438, 443,  
447–452, 467, 468, 471, 472

## G

Gene expression, 109, 170, 254, 260,  
266, 425  
Genetic markers, 421, 422, 424, 425, 452  
Gill ATP-ase, 51, 138–140, 150–154, 439  
Glass eel, 3, 4, 39, 43, 48, 49, 65, 104, 118,  
148, 180, 208, 214, 215, 310, 333, 335,  
378, 415, 422–424, 434–452,  
Gonadotropin releasing hormone, 6, 18, 45,  
230, 280  
Gonadotropins, 5, 6, 17, 18, 22, 24, 27, 40, 42,  
45, 52–54, 230, 236, 253, 254,  
257–268, 280, 283, 284, 286, 287, 309,  
310, 313, 327, 335

## H

Herpes, 392  
Hormone status, 212  
Hormones, 6, 16–18, 28, 40, 42–45,  
48–51  
Hyperbaric chamber, 108, 231, 296, 467  
Hypothalamic neurons, 255–256

## I

In situ hybridisation, 257, 290, 295, 299, 301

**L**

- Life cycle, 4, 6, 15, 35, 39, 45, 48, 91, 100,  
129, 148, 202, 203, 207–209, 220, 230,  
280, 387, 401, 403, 407, 416, 420, 421,  
425, 426, 438, 466, 471
- Lipid mobilization, 230, 231, 234, 238,  
243–245
- Lipid stores, 47, 229, 235, 246, 314, 467

**M**

- Maturation, 4–8, 13, 15–19, 23, 28, 39, 40, 47,  
48, 53, 54
- Membrane fluidity, 105, 106, 112, 113, 115,  
117, 119
- Metamorphosis, 4, 6, 13, 14, 16, 17, 19,  
39–55, 67, 100, 107, 108, 114, 115,  
119, 231, 310, 370, 411, 434–436, 439,  
445, 466, 471
- Microsatellites, 412–415, 419, 420, 425
- Migrants, 4, 23, 29, 30, 33, 39, 43, 76,  
90, 230, 403, 437, 446, 447,  
449–452, 470
- Migration, 65–71, 73–79, 81, 83, 85–91
- Mitochondrial respiration, 195
- Morphology, 65, 151, 310, 338–343, 356
- Mortality, 7, 8, 66, 77–81, 84, 85, 88, 91,  
205, 208, 210, 212–215, 346, 367,  
376, 388, 393, 403, 423, 424, 442,  
446–448, 451

**N**

- Natural triggers, 231

**O**

- Oocyte development, 235, 245, 246, 262, 313,  
319–321, 325, 328
- Osmoregulation, 15, 18, 44, 49, 129–135, 139,  
141, 148–150, 152, 154–170, 424, 434,  
442, 448, 472
- Ovulation, 5, 45, 243, 262, 267, 268, 284–286,  
292, 297, 309, 315–323, 325, 328

**P**

- Panmixia, 412–414, 420, 469
- Paratenic host, 202, 203, 207, 208,  
214, 220
- Pathogenic symptoms, 220
- Polychlorinated biphenyls (PCBs), 5, 181,  
323, 324, 355–379, 394, 470–472

PCB. *See* Polychlorinated biphenyls

- Phylogeny, 255, 407–410
- Pituitary, 5, 6, 17, 18, 24, 40, 42, 43,  
45, 48–51, 53, 118, 133, 134, 150,  
230, 236–238, 242, 245, 246,  
253–255, 257–261, 263–268,  
279–281, 283, 284, 286–288,  
290–292, 296–301, 309, 313,  
315, 316, 325, 328, 376, 377,  
439, 467
- Pituitary control, 43, 267
- Pituitary hormones, 18, 49–51, 53,  
133, 134, 150, 376
- Population structure, 413, 420,  
421, 423
- Puberty, 39–55, 264, 279, 321–281,  
286–290, 293–297, 299

**R**

- Reproduction, 5–8, 13, 17, 18, 20, 27, 39, 46,  
47, 49, 51, 53, 108, 109, 112, 115, 116,  
118–120, 148, 161, 179, 181, 196,  
241–243, 267, 279–301, 310, 313, 316,  
323–326, 328, 333, 348, 366, 367, 370,  
376–378, 411, 421, 424, 426, 446,  
465–473

**S**

- Salinity, 16, 65, 77, 100, 101, 107, 108, 111,  
130–132, 150–153, 207, 209, 216, 230,  
326, 396, 424, 434, 435, 437, 442–445,  
447, 451, 452
- Season, 19, 27, 32, 68, 71, 73, 88, 116,  
229, 260, 262, 373, 376, 403,  
404, 420
- Silver index, 325, 466–468, 471, 472
- Silvering, 4, 8, 13–35, 39–55, 65, 67–69,  
91, 100, 107, 108, 116–117, 119,  
120, 134, 136, 181, 182, 212, 230,  
231, 234, 237, 241, 243, 245, 257,  
258, 279, 293, 294, 296, 301, 313,  
325, 328, 376, 433, 451, 466, 468,  
471, 472
- Spawning migration, 5, 14, 65, 67, 141,  
179–196, 216, 219, 231, 245, 314, 326,  
328, 365–379, 394, 397, 420, 433, 445,  
466, 471
- Sperm morphology, 339, 356
- Sperm quality, 333–356
- Spermatogenesis, 234, 238, 245, 261, 262,  
267, 310, 312, 328, 334

Stress, 79, 83, 148, 154, 169,  
179, 181, 182, 208, 209, 212,  
214–216, 220, 231, 327, 350,  
370, 371, 376, 377, 387, 388,  
391, 392, 394, 419, 422, 425,  
439, 441, 471

Swimbladder parasite, 5, 7

Swimming, 4, 5, 7–8, 14, 24, 26, 34, 35, 47,  
73, 75, 76, 78, 79, 81, 84, 85, 100,  
108–110

**T**

Thyrotropin, 17, 42

Toxicity, 5, 181, 366, 372

**V**

Virus distribution, 181, 388–390

Vitellogenesis, 17, 47, 53, 231, 234, 237, 238,  
240, 242–246, 259, 261, 262, 267,  
285–287, 289, 296, 313, 323, 326, 327
